IMPORTANT: NHTSA redesigned the nationally representative sample of police-reported traffic crashes, which estimates the number of police-reported injury and property-damage-only crashes. The new system, Crash Report Sampling System (CRSS), replaced the National Automotive Sampling System (NASS GES) in 2016 and has a different sample design. Thus, the 2016 estimates from CRSS are not comparable to 2015 and earlier year estimates from NASS GES.
